# Recommendation Letter

To Whom It May Concern,

It is my great pleasure to recommend Mr. Ngoc-Quang Nguyen for admission to the Seoul National Univeristy's Department of Computer Science and Engineering. I have known Ngoc-Quang for a year and was delighted to serve as both his mentor at Voronoi Inc. During that time, I watched Ngoc-Quang grow into an outstanding individual who excels in both his academic and personal pursuits.

As Ngoc-Quang's mentor, I witnessed his extraordinary ability to quickly understand advanced computer science field concepts and then adeptly apply them to real world situations firsthand. His project about applying artificial intelligence and machine learning was particularly impressive. In it he designed, built, and programmed a model that could predict the binding affinity of the drug and the protein target.

Ngoc-Quang's academic accomplishments are rivaled only by his personal strengths. His compassion and charisma are beyond his years and he is well-loved by his peers, as well as all those who had the pleasure of teaching him. Whenever any of his colleagues are having a difficult time or feeling down, he never fails to step in with an encouraging word and a smile.

I highly recommend you accept Ngoc-Quang into your PhD Computer of Science and Engineering program. I am confident he will make an excellent addition to your university's community. Please feel free to contact me if you have any questions regarding his character or past academic work.

Sincerely,

Tran Le Anh Tuan, **PhD**
at Korea Advanced Institute of Science
and Technology (KAIST), Yuseong-gu,
Daejeon, Korea.
